TELEGRAMS

(By Havas Agency)

Paris, 9th.—Monsignor Ferrata, the Secretary of His Holiness, has been appointed Nuncio for this capital.

Ottawa, 9th.—Sir J. A. MacDonald, Prime Minister in the Canadian Cabinet, died yesterday.

Naples, 9th.—Vesuvius is again in eruption, but as it is thought it will not increae to any extent, little or no anxiety is felt.

New York, 9th.—Another revolution has broken out in Hayti. The Government has already suppressed it. It is stated that the prisoners taken have been massacred.

Tucuman, 9th.—Government has been advised that disarmed Chilian soldiers will shortly pass through this province.

The Municipality here is determined to have bull-fights.

The sugar cane crop continues to be gathered. Many sales are reported.

Montevideo, 9th.—The President gave a tea party last night with a view, they say, of making a reconciliation between Bauza and Minister Ramirez.

Unifieds are rising and the market is firm.

The Galicia has arrived from Valparaiso and the Iberia is expected tomorrow from Liverpool. The Citta di Napoli has arrived.

The Colon leaves this evening for B. Ayres.

DR. PELLEGRINI'S DIAGNOSIS.

The principal State-physician has diagnosed the republic, and considers the patient in a bad way, but by no means beyond hope of recovery. He dilates at tremendous length on the symptoms, and gives his opinion freely on the treatment suggested by the Chamber of Commerce. Now and then he ventures to insinuate that the experts of the Chamber of Commerce are mere quacks and that their remedies are like those of Dr. Sangrado.

1st. As regards foreign debts, the Chamber of Commerce protested in the strongest manner against the Rothschild Moratoribus, because it left the Argentine Government under the obligation of remitting £40,000 in gold monthly on account of the 1886 loan. Dr. Pellegrini says this was inevitable, as the Custom House was mortgaged for the service of that loan. We maintain, however, with the Chamber of Commerce, that the country is unable to pay £40,000 a month for the said loan.

2nd. The Chamber of Commerce called for the suspension of all public works in construction, and to this Dr. Pellegrini replies that most of them were stopped last year, the only ones now progressing being the Madero Port and some railways in the interior. Meantime if the Government does not plainly tell us how much is to be expended on these works we shall have every reason to fear that they may prove a second Bateman Legacy.

3rd. The public expenditure was indeed excessive, according to Dr. Pellegrini, and on this account he has dismissed 1,500 employees since last August, but he thinks the remainder are poorly paid, as they receive no more salary the paper dollar being at 11 pence than they did when it was 32 pence. We incline to agree with Dr. Pellegrini that the salvation of the country is not to be achieved by reductions in the budget. Public expenditure of this kind must increase with population, and any reduction is an error.

4th. The Chamber demanded a reduction of import dues, to which Dr. Pellegrini replies that such diminution would entail a heavy loss to the Treasury. On this point the learned doctor is mistaken, for high duties usually defeat the object in view. They simply kill trade, and as a proof of this Dr. Pellegrini says that the imports of 1891 will hardly reach 55 millions, or one-half of what they were last year. If he means to kill trade his system, as he admits, is thoroughly successful.

5th—The railway tariffs are very properly condemned by the Chamber as excessive, Dr. Pellegrini considers the outcry on this subject more or less unfounded. He says, if you take the value of a bushel of wheat or maize in 1888 and the freight charge thereon per 100 miles, and compare the same figures in 1891 you will find that the charge is now relatively less than 3 years ago. We regret that we have not the necessary information to confirm or controvert this assertion. But we must remind Dr. Pellegrini that wheat and maize do not constitute more than 10% (or possibly 12½) of the items that make up railway earnings. Passenger traffic is the largest item; wool and hides form the bulk of Argentine exports. We have only to point to the official returns of the Great Southern Railway to justify the complaint of increased and excessive tariffs. Here are the figures for 1889 and 1890—

	1889	1890
Passengers No.....	1,013,000	954,000
Goods, tons.....	475,000	442,000
Train miles run....	1,156,000	1,092,000
Gross receipts, £ ..	530,000	565,000
Net profit, £	287,000	314,000

The company carried fewer passengers, less goods, and actually ran 64,000 miles less than in 1889; yet the receipts rose £35,000, the profits £27,000. This brilliant result was due to increase of tariff, and must have called forth great praise from the London Directors. But its effect on the trade of the country was most prejudicial.

In winding up his diagnosis Dr. Pellegrini tells us that the present acute form of the crisis results in great measure from the gloomy apprehensions that have seized the public mind. Such fears are, however, more than justified by the threat contained in the bill now before Congress, to order a general Moratoribus for six months as regards all obligations in gold. Such a law, as we pointed out yesterday, must be followed by a similar one as to all obligations in currency. And who will venture to say that in six months hence we shall be in a better position than to-day, to enable us to resume payments between man and man?

Dr. Pellegrini reverts to the balance-of-trade as the panacea for all things: he says our imports this year will not exceed 55 million dollars, our exports will reach 160 millions. By this he wishes his countrymen to believe that we shall receive from Europe the difference, say 105 million gold dollars or 21 millions sterling. But, herein he is sadly mistaken. The balance-of-trade theory was exploded 130 years ago: balances are not acquitted in specie. When Dr. Latzina comes next January to publish his trade-returns for 1891 it will be found that there has been no influx of specie from Europe.

In his remarks about the proposed Bank of the Republic we fully agree with Dr. Pellegrini. If Congress would only pass the project the result would soon be apparent. "Solvitur ambulando" is applicable in this case.

THE PRESIDENT ON THE CRISIS.

The following is the answer of the President of the Republic to the note recently addressed to him by the Chamber of Commerce:—

To the Chairman of the Chamber of Commerce

Sir:—I have read with much interest the exposition made by the Chamber who are justly alarmed by the development of events within the last few days and who, through your intermedium, point out what they consider to be the best means of mitigating the evils which are weighing on trade and on the country. I always like to hear the opinion of important bodies and I feel grateful to you for having volunteered your opinion, since an occasion is offered to me of considering the exigencies of the moment and of making known the views of the Government in the midst of the confusion consequent on the clashing of interests and opinions.

I will therefore proceed to examine the indications contained in the note which I am now answering, and I will endeavour to shew that all these indications have been carried, as far as possible, into practice by the Government, after consulting the interests at stake and respecting engagements equally sacred whether signed by a merchant or signed by a Government.

1st Indication:—Immediate suspension of service on all public debt, whether in the form of loans, or guarantees, or in fact in any form.

Unfortunately, this suspension already exists so far as the loans and guarantees of the State are concerned, by virtue of the moratorium arrangement agreed to by our creditors, and also in regard to provincial and municipal loans, for the simple reason that the service on the latter is no longer paid. The only service paid is that on the 1886 loan, because, according to contract, part of the Custom House returns—$200,000 per month—must be set aside for that service, and that amount covers it. When lenders demanded this guarantee as an essential condition to advance us money, the National spirit was roused and the Government at the time was severely attacked, because it was thought that the honour and credit of the State were in themselves sufficient guarantee. With sorrow we must confess that the lenders acted on safe and prudent principles, for the case with which the Government is called on to-day to suspend payment of what is due would seem to indicate that the credit alone of the State was not entirely the guarantee that people believed. No: a nation cannot, without dishonouring its name, suspend the payment of its debt on the ground that its economic interests are thus consulted, no more than a merchant, on the plea of consulting his commercial interests, can suspend the payment of his debts. When circumstances render payment impossible—even momentarily—then an arrangement with the creditors for moratorium or payment as far as possible, while consulting the interests of both parties, is necessary. That is what the State has done and that is what the provinces are discussing at this moment. In the meantime, the fact is that, with the exception of the $200,000 per month I have already mentioned, no remittance for service on debt is made to Europe, and therefore this service cannot be the cause of the present difficult situation.

2nd Indication:—Immediate suspension of all public works involving state-expenditure.

Last year the Government decreed the suspension of public works, and with the exception of the railways in the Interior and the port of this city, by virtue of their special contracts, public works were suspended. In regard to the railways arrangements have been made with the contractors for their almost total suspension. Exception has been made of those railways which are almost completed. The measure has provoked complaints in that part of the Republic deprived of this work of progress and where many industries were being started in the anticipation of railroad communication. In spite of the justice of these complaints, the implacable law of necessity is enforced, while more prosperous times are looked forward to.

In regard to the port works, they are as a matter of fact suspended for want of money. Government has of late devoted all its efforts to devising means to prevent any injury being inflicted by that suspension on those portions of the work already completed, and in which millions have already been sunk. An arrangement has been arrived at for the completion of those parts nearly finished, thus diminishing the possibilities of damage, while the parties interested have made as many concessions as practicable under the circumstances.

In the ordinary conduct of Government, a contract once signed cannot be rescinded by decree; and if the condition of the Exchequer renders the carrying out of the contract impossible, then means must be devised for rescinding or modifying it, while respecting rights already acquired by the contractors, who have sunk more or less considerable capital in the enterprise. Such is the line of conduct of merchants or private individuals and such, even with more reason, should be the conduct of the public powers, who, unlike private individuals, cannot be compelled by the action of the courts to comply with their engagements.

3rd. Indication—Reduction of the Budget and diminution of the staff of Government employees.

Both these measures have already been adopted. The extraordinary budget has been almost completely suppressed, while the ordinary budget has been considerably cut down. Within the last few months over 1500 employees have been dismissed, and the estimates for next year are being studied with a view to the most rigorous economy. Unfortunately the depreciation of the paper-dollar increases in some branches of expenditure what is cut down in others. Such items of expenditure as clothing and provisions for the army, navy and police must increase according as the dollar becomes depreciated, and these expenses must be paid cash down. It is singular that no purveyor will take a contract, because, owing to the depreciation of the paper-dollar, he cannot fix a price, and a purveyor supplying at fixed prices would be ruined at the end of the year. It must, moreover, be borne in mind that the salaries of employees have not been altered, and they are receiving the same amount in paper to-day, when gold is over 400 per cent., as formerly, when gold was at 150. These details are rigorously exact, and I cannot understand how people make out that there are 40,000 Government employees in the Republic. In regard to the United States, in the last budget voted, the mere item of pensions was raised to an amount equal to three times our entire expenditure. On the other hand, these statistical proportions are fallacious. It is a mistake to think that a nation of 5 million inhabitants should have the tenth part of the number Government employees in a nation of 50 millions. The ratio is dependent on many circumstances, such as system of government, density of population and system of administration.

4th Indication.—Reduction of duties on imported articles of prime necessity and raw material for industry.

I must here call the attention of the Chamber of Commerce to the fact that certain assertions by dint of repetition are finally admitted as acknowledged truth, and that this assertion about heavy duties on articles of prime necessity has been repeated so often that even the Chamber of Commerce accepts it as truth. The increase in taxation does not embrace articles of prime necessity, and the only article mentioned in this respect is sugar, and the increase on this article was made in obedience to the very principle upheld in the note I am answering, that is: the advisability of fomenting national production. The present scarcity does not arise except in a very small measure from the tax. The scarcity arises from the depreciation of money, and the same scarcity is observable in meat and bread which are not taxed, but which being articles of export are valued in gold. Moreover, the Chamber must not forget that the public powers do not vote that taxes in an arbitrary manner, that there is a necessary quantity of revenue, and that the amount of a tax is suggested by calculation and not by caprice. There is an evident contradiction in the note I am answering when it is affirmed in one place that the Government will not be able to cover its expenditure with 30 millions as calculated and elsewhere it is remarked that the taxes should be reduced, which would place the Government in a still more difficult situation.

5th. Indication: Reduction of railway-rates.

If the Chamber of Commerce had asked the railway-managers for a statement of returns and expenses during the last few months they would have come to the conclusion that this year's dividends are of an extremely problematic nature, and this alone would shew that the companies cannot reduce their rates without courting ruin. It is maintained that private administration is most sensible and most economical, and I do not believe that the railway-companies would enforce prohibitive rates. In regard to the guaranteed railways, I am in a position to state that, with their present rates, they turn in no profits, and many of these concerns are daily clamoring because their working shews a loss.

Moreover, let the Chamber have the goodness to calculate what a "fanega" of wheat or maize was worth three years ago, and how much freight it paid, and how much a "fanega" (4 bushels) is worth to-day, and how much freight is charged for it. They will find out that, in proportion, the freight to-day is less. The depreciation in paper must not be accepted in its favorable aspect. We must take it with all its effects.

Having thus examined the indications made by the Chamber of Commerce, I will seize the opportunity to enter into other considerations, since this interchange of ideas is of advantage, because it will contribute in a great measure to strengthening future legislation and determining the rôle of each in the work of general reparation.

The evils which aggravate the present crisis are not entirely of an economic nature, nor can they all be suppressed or mitigated by official action.

Some time ago, this community fell a victim to a fever of speculation, to an optimism which induced it to believe the grossest exaggerations, to an audacity of enterprise which impelled it to launch into the wildest schemes. The result was an orgy of speculation which I need not recall to the Chamber of Commerce. We find ourselves to-day—as is the case after an orgy—with our mind and body in a state of prostration. Blind confidence has been superseded by absolute distrust. In the room of fantastic illusions we find general scepticism, and where the most audacious spirit of enterprise prevailed we find the most complete discouragement. If yesterday the efforts of all were directed towards fanning illusion, to-day the efforts of all are directed towards increasing the general disillusion and doubt, and everything that tends to aggravate the situation is immediately believed and circulated with a kind of rage to heap on shadows in the sombre picture. An imprudent word, an unfounded rumour suffices to hurl the multitude to the counters of the banks without thinking of the catastrophe that might supervene, nor of the interests compromised. Blinded and deafened by the ferocious egoism of individual interest, there they rush in a body in a mad career which may terminate in an abyss. Was there any motive for doubting the solvency of the banks? None. Where then is the cause? The morbid condition of the market. The same phenomenon has been observed in veteran troops seized with a nervous agitation to such a degree that an accidental detonation suffices to spread confusion. Capital, full of fear, hides itself and savings in the alarm become metallized. Gold rises because it is withdrawn and it is withdrawn because it rises. All the efficient forces of official action become contracted and all call on Government to use them. But with soldiers who tremble and hide, you cannot carry positions nor achieve victories. Where is the use of passing one hundred laws, if the people refuse to move? With laws and decrees you cannot make capital nor build up institutions. Against the moral depression which disheartens and renders useless every effort, there is but one remedy: the general resolve to regain courage, to unite efforts, to have faith in the vital resources of the country, to march together on the road, in the conviction that there is no night, however dark, that has not an end. To arrive at this, the action of the commercial community is of more efficacy than that of Government.

Let us study for a moment what situation this crisis is paving the way for. The paralysed condition of trade is reflected in the falling-off of imports, which will perhaps not reach 55 millions this year. The service on the debt is suspended. The interest on Cedulas is the next thing to suppressed. The dividends of foreign companies are enormously reduced: 70 to 80 millions to be paid this year. If nothing extraordinary happens, if the year turn out what it promises to be—a normal one, we shall have within 8 months 130 to 140 millions of produce for export. What will be the advantages of the balance for us? Anyone may verify the figures and foresee what it is logical to foresee. If exchange to-day, in the midst of winter, is high, what will it be when we have to draw for our produce? Far from being dark, our near future is beginning to look clear, and without running the risk of being taxed with exaggerated optimism I may say that the crisis will begin to give way very soon, and that distrust has no longer any reason to be rampant. The Government is asked to devise financial plans, as if there were a magical combination to change the situation between night and morn. The Government, with the exception of its self-imposed retrenchment, has no other financial plan than that already explained, and which is this: no more issues, no forced currency, and the founding of a bank with fresh capital, to regulate the currency, and keep life in trade and industry.

What will the new bank be? It will be exactly what its capital makes it, while consulting the general interests of the country. If two years ago the concession had been offered for a grand national bank, millions would have been paid for it. To-day we offer the concession gratis, to-day when such a scheme commands a splendid future, and yet no one will have it. There is an avalanche of projects for the formation of the bank, but what I want to make this hare-soup is not the recipes but the hare itself. Get the capital. I will undertake to make the soup to the taste of the consumer. I am determined to make it a success with the assistance of the commercial community. Let everyone say, and repeat it, that the crisis is giving way, and things will soon begin to improve. Let us unite our efforts and we shall soon stare one another in the face and wonder why we were all so frightened.

I have the pleasure etc.

C. PELLEGRINI.

THE PROVINCIAL BANK.

The following is the report of the Committee of the Chamber of Deputies:—

Art. 1st. Let the Provincial Bank have a Moratoribus for 5 years from date for payment of deposits and interest, on the following terms:—

1st. Any persons owing money to the bank may pay up to 50 per cent in cheques against deposits if the sum amortized quarterly be as stipulated, or up to 80 per cent if the debtor amortize in excess.

2nd. On no account can the bank reduce the rate of interest on unpaid deposits.

Art. 2nd. The bank is to free itself of the Free Banking Law as follows:—

1st. The National Government shall take over the extra issue authorized by that law and return all discounted bills held by the Caja de Conversion as part security.

2nd. The bank shall hand over to the Nat. Government the 4½ per cent gold bonds amounting to $32,958,000 deposited as security for the emission, and all transactions on this point shall be considered closed.

3rd. The Government may at a fitting time dispose of the above gold bonds. If the proceeds exceed what the bank owed the Government the latter shall refund the surplus to the bank; but if there be any loss the Government shall forego any claim against the bank.

Art. 3rd. The bank shall be free of all taxes pending the said Moratoribus.

Art. 4th. Until the gold bonds be sold the interest on same shall be applied to reduction of the notes of the bank.

THE CHILIAN REVOLUTION.

Several telegrams were received yesterday from Santiago, announcing some changes in the army staff voted by the Chamber of Deputies. The honorable gentlemen have moreover declared an amnesty for all deserters of the Peruvian campaign and for those revolutionists who return to their banners. The Mayor of Valparaiso has issued an order prohibiting the shipping of provisions or coal for the North. In regard to the Itata, which, according to the telegrams we published yesterday, had succeeded in landing its arms and ammunition, it would appear from later advices that when she was handed over to the United States Admiral, she had no cargo whatever. There seems to be great uncertainty about the Itata, and the telegraph is so contradictory that it is impossible to say what has been done. According to the Lima papers of 10th ult., the Chilian transport Amazonas was lying at anchor in the port of Callao. The transport had hotly pursued the Mapocho, upon which it fired no less than 8 shots. The commander, in justification of this proceeding, stated that he was looking for the Itata and wanted the Mapocho to stop in order to question the captain. It is supposed that the Amazonas left for Iquique on the 2nd inst., carrying some families of distinction to that port.

There is no news in regard to encounters between the belligerent forces. The struggle appears to be at a standstill. The Liberal Club of Santiago has been reorganized, with Mr. Ismael Perez Montt as president. We may add that a telegram from Rio Janeiro states that the Chilian Minister there leans to the side of the revolution.

Some details have been received with reference to the melancholy end of Mr. Demetrio Lastarria in the Cordillera. We are happy to state that his companions escaped, although it was at first thought that they likewise had perished. They set out to cross the Andes by the Portillo Pass, which is higher than Uspallata and is one of the first to close. Mr. Lastarria feeling unwell decided to leave his companions and accompanied by his two servants to return to San Jose de Maipo. A snow-storm overtook him while on his way back. He and his two servants huddled together to keep warm, rubbing themselves to avoid being frost-bitten. The servants suddenly observed their master to fall, and when they stooped to pick him up they found he was dead. The other travellers in the meantime had pushed on their way and took refuge in a friendly cave when the storm came on. As soon as the storm ceased, they despatched a servant on a mule to San José for help, which duly arrived. They then returned to Chile and dispersed, having safely baffled the authorities.

Mr. Belisario Prats, one of the oldest residents of Santiago, has been thrown into prison, in consequence of the discovery by the authorities that he was in favor of the revolution. The discovery was made through an intercepted letter.

LOMAS HARRIERS.

Lomas de Zamora,
Saturday evening.

We got in at the finish, and, as was predicted of us, "covered with mud and glory." Such a charming afternoon has seldom been seen in this beautiful suburb, and the inaugural meet of the Lomas Harriers was a supreme success. Between one and two o'clock in the afternoon crowds of ladies and their gallants might have been seen riding, jogging along to the rendezvous. Carriages of all descriptions thronged the fashionable Avenida Mecks, and the scene was certainly, in the language of the celebrated Epps, "invigorating and grateful." Really it was most picturesque—the green-coated and velvet-capped huntsmen, the charming figures of the ladies, perfectly mounted and sporting their natty caps, while a genial smile of welcome beamed on every visitor who put in an appearance. Five minutes before the 2 p.m. start over fifty-three ladies and gentlemen were there, huntresses, hunters and horses ready for the fray. I sympathized with the anxious glances of the worthy master, Mr. F. W. Barrow, for truly he had a task before him. Amongst those present were Mrs. Shearman, Mrs. Samson, Mrs. Romer, Mrs. Chevallier Boutell, Miss Jacobs, Miss Mackern, Mrs. Knee, Mrs. Hopkinson, Miss Smiles and many other fair riders, the hunters' division being well supported by the whips, Messrs. Romer and Mohr Bell, and by Messrs. Loveday, Walker, Mohr Bell, Coulon, Wight, Cowes, Samson, Roland, Chevallier Boutell, Pinchard, Knee and a host of others equally well known and enthusiastic. At 2.10 the hares started, and at 2.20 off we went helter-skelter after them. Away we sailed, keeping South of Lomas, and after a rather serious check amongst the wire-fences, found in the direction of Santa Catalina. Commend me to the mud-holes, rivers, hills, dales, ditches and the like those merry hares led us! Off again, all round Santa Catalina, and a big turn by Monte Grande, second edition of ditches and the previous etceteras, and finally struck the straight road, back towards Lomas town, arriving to finish at the old Temperley Polo field; time 1 hour and 25 minutes. Of the riding too much cannot be said; really, from end to end it was splendid, and I doubt if any suburb of any city in the Republic could produce a better sample all round. It was, as a hunt, a perfect success, worthy of those who started it, and the noble master is to be congratulated on such an inauguration meet.

I understand the next meet is to take place on the 24th; I for one will be there, and those who want a thorough good afternoon's sport should be there too. Throughout the season meets will be held, and it is whispered a grand Hunt Ball is to wind up what will undoubtedly be *the* attraction of our Southern suburb. Success and long life to the hospitable Lomas Harriers!

RAILWAY ITEMS.

The Attorney-General has laid before Government his report on the protest filed by the Argentine Great Western and East-Argentine against the intrusion of interventors as appointed by decree in May last year. He thinks that so far as the Argentine Great Western is concerned, the difficulty, as stipulated in the contract, might be settled by arbitration. But he advises the Government to forward to the protesting parties the memorandum of the N.R. Board explaining the measure, and then the Companies in question, should they still desire to protest, must specify the modifications they consider equitable, and submit them to Government for consideration.

The estimates of the working of the Central Northern Railway for the current year have just been drawn up and laid by the National Railway Board before Government. The working-expenses are set down at $715,896 for the 12 months.

Government has approved the plans of the siding between kils. 16 and 17 on the Belgrano-Las Conchas branch of the Rosario Railway: also the plans of three new stations on the Sunchales extension between Santiago and Tucuman.

Government has refused to register the contract for the first section of the San Juan and Cabra-Corral Railway. The first section is to Jachal. The reason of this step is that the Government is decided not to increase the responsibilities of the State.

In regard to the second and third sections, the Board of Public Works has called on Government not to allow them to be built, as the contractors have failed to comply with their contract. The question will be decided by the Attorney-General.

The N. R. Board have just taken an excellent step, of a philanthropic and economical nature. They have decided to propose to Government—and we have no doubt the Minister will not throw out so excellent a proposal—to appoint two medical doctors with a monthly remuneration of 250 dollars each on the staff of the Central Northern Railway. This will be an immense boon to the humbler employees of the line, who, according to Dr. Araoz, the chairman of the N. R. Board, have, in consequence of climate and other circumstances, frequent need of medical assistance, and for want of money are very often compelled to do without such assistance. Two gentlemen have already been proposed for the posts: Drs. J. R. Avila and J. B. Arais, one to reside in Tucuman and the other in Salta, both being under the obligation of running over the line to attend to sick employees.

If may interest many of our readers to know that the original plan of a junction of the Pacific and Villa Maria lines at Rufino will be discarded in consequence of serious difficulties in carrying it out. The local Board of the last named line are drawing up another plan avoiding those difficulties, which are chiefly connected with the interchange of traffic.

Talking of the Pacific Railway and junctions, we are reminded that the local Board of that line have addressed a note to Government calling attention to the necessity of constructing a double line to avoid the countless inconveniences arising from an increasing traffic between Palermo and the Northern junction. The plan of the proposed double track is in the hands of the Minister awaiting the sanction of Government. The opinion of the Board of Public Works must, however, be first consulted.

The Official opening of the Tucuman Salta and Jujuy Railway will take place on the National anniversary, that is the 9th prox. Great preparations are already being made in Salta to commemorate both events. There are to be banquets, music, illuminations, fireworks and "bailes sociales." Special trains will be run gratis, to accustom the joyful Salteños to the easy movement of English railway-cars.

We note that the elevated railway scheme for this city has not been abandoned. The plans have just been submitted to Government for approval. The estimates are being made up in Europe. Engineer Lavandeira is the concessionaire of this concern.

THE LATE DR. CANTILO.

Yesterday Dr. José Maria Cantilo died after a long and painful illness, much regretted by his brethren of the press in this city. We had the pleasure of knowing his father, who was for some time editor of *El Siglo*, a good citizen and upright journalist. The gentleman whose early death we now deplore was, like his father, an honor to the profession of letters. He accompanied Gen. Mitre as secretary on a special mission to Rio Janeyro in 1872, and afterwards sat as a deputy in the Legislature of Buenos Ayres from 1878 to 1880. For many years he was engaged on various newspapers in our city, as sub-editor, being the sole support of his mother and brothers. He belonged for some years successively to the staff of the *Nacion* and *Nacional*. The press has lost in him a useful member, and one who inherited good qualities from his much lamented father.

A MODEL MANAGER.

Buenos Ayres, June 9th

Mr. Editor,

The publication in yours of this date, signed "The Committee," has somewhat surprised me, as I was not aware that I had made any promise to open additional streets in the neighbourhood of Floresta, this being a matter which concerns the Municipality; and with regard to the fines which are said to have been imposed on the Company to the extent of $24,000 m/n, I would recommend the "Committee" to be a little more accurate in their information in future before venturing to publish it.

Yours faithfully
J. F. Roberts,
General Manager.

THE LONDON BANK.

Mr. Editor,

Nothing need, nor ought to be done, by our community to mark their appreciation of the way the administration of the London and River Plate Bank upheld its credit and position during the late panic, apart from the honour of the old country, for they simply did their duty, and England always expects us to do that.

I endorse your Editorial note that any movement of the kind suggested and kindly meant by the Yankee (which is, and should be duly appreciated by us) might produce jealousy; but let us by all means commemorate the event by such a tablet as you propose, and towards which I will contribute five cents or five hundred as required, although I am only an Irishman and

A Cowboy.

EDITOR'S TABLE.

The Gold Eagle was attacked with dizziness while in mid-air yesterday, fainted, and fell on his head about 30 peaks, points and pesos per cent. Several humane brokers rushed to his assistance at the second ring and raised him gently, when it was found that he had sustained some injury. Tremendous cheers greeted the bird's fall; and those eminent operators Drs. Bull and Bear assembled in consultation over him, the former thinking that he will recover, and the latter that he has received severe internal injuries. We hope so.

In the interest of fair Terpsychore we call attention to the caution to Cinderella dancers to be found in our advertisements to-day.

The meet of the Lomas Harriers on Saturday was a splendid success, and is described by our special reporter in another column. Our barometer was, happily, 48 hours astray in its forecast of the weather; but it was not its fault. It was born in England 20 years ago, has never liked this country, and invariably resents its forced exile by working "al revez." We forgot this patriotic peculiarity when reading it on Friday, when it pointed to "Much Rain"; on Monday it was at "Set Fair."

We hear of a second new sporting paper in English as about to be started. The more the merrier.

Our musical readers should not forget the Choral Union Concert to-night, and go early, as there will be a crowd. Many of our foremost amateurs take part, and the programme is splendid. We are requested to state that the concert will not be postponed, no matter how bad the weather is. The special train from Constitucion at 11.30 p.m. goes as far as Temperley. We hope this will be borne in mind by people living out on the Southern line, and induce many to come.

We hold over for our next issue a list of subscriptions and donations to the Salvation Army up to date. We have no space for it to-day.

We feel much pleasure in saluting Mr. J. R. Riesco, representative of the world renowned Reuter's Agency, who has come to this part of the world to initiate a system of International Advertizing. We wish him the very best success. Many of our leading contemporaries in Europe have already given their adhesion to this new enterprise.

Arrangements have been made by some of the North American residents to give a grand public ball in the La France Hall on the 4th of July. Tickets $5 each.

We are asked to call the attention of the members of the English Literary Society to an important notice now posted up in its rooms in reference to a tribute to the memory of the late Mr. Barnes. We learn that Mr. W. S. Goode has been appointed Hon. Sec. of the Society in place of our deceased friend.

A challenge to mortal combat, sent by an ex-bank manager to a Senator, was spoken of yesterday. Better not fight. The field of honour is certain to be damp after the recent heavy rains, and the combatants might catch cold through wet feet.

The bakers have given another twist of the screw to the price of bread. When do they intend to call a halt in this direction?

The Lord Mayor has now turned his attention to the too large and ever increasing class of citizens who find solace in the bottle for all the ills of the crisis, and has already in his mind's eye a plan for a Drunkards' Asylum like those in the north of Europe, in which the cure is effected by giving the patients food soaked in strong drink till they sicken at the sight of it. Confirmed topers, however, may like the diet, and will probably try to enter the new establishment as quickly as possible.

There is still employment of all kinds to be had at the National Labour Office, and we strongly advise all those who are out of work to apply there. Any port in a storm; and the numerous ports of refuge now offering to the unemployed in the Interior are not to be despised. Unskilled labour is most in demand, and $20 a month with food and lodging is about the average wage paid.

The question of the day in Tucuman now is whether the citizens are to have that refined diversion bull-fighting or not. The Municipality says Yes, and the Government utters an emphatic No. Thus the quarrel stands. The sugar-men are trembling in their shoes lest the crisis force Government to reduce the import duty on foreign sugar. We most devoutly hope it may.

The post office in distant Salta seems incorrigible. Another robbery of a registered letter containing $3,500 has just taken place there. Only last week the P. M. G. "sacked" two employees in the same office for a similar disregard of the laws of "meum and tuum."

We beg to thank our esteemed colleague Mr. Michael Dinneen, editor of the *Southern Cross*, for $50 given by Mr. Patrick Ham to the Boys' Orphanage, in addition to his previous donation of $200. Mr. Ham has also given Mr Dinneen $50 for the Girls' Orphanage. We likewise have to think Colonel J. D. Loynachan for $15 for the Boys' Orphanage.

We're sorry that the weather is too bad for a flying trip to Rosario; otherwise we'd be there on Friday night next, to hear the Revd. Mr. Spangler's lecture to the members of the "Literary and Social Guild" of that city on "Evolution." Our advices say that everybody intends to go, as a treat is certain, the theme being a specialty of the talented lecturer.

The Health Board at La Plata is devoting its superfluous energy to the formation of four regiments of Boy Soldiers from the schools. It is to be hoped that parents will quietly sit on the thing by refusing to allow their children to take part in it. Drill for boys at school, and for girls too, is an excellent thing; but this showy, costly and useless playing at soldiers in public is very much the reverse. How Education Boards, Aldermen and other people deliberately encourage and promote it is more than any sensible person can understand, try he ever so hard.

The State school teachers of Mercedes have petitioned the Education Board to pay them their salaries for March, April and May, as, although they have served a hard and long apprenticeship to starvation, they cannot possibly live on air and music for longer than three months at a time. Besides, one ingredient of the light diet referred to, "musica," is now denied

GREAT AUCTION
OF
LAND
IN THE BOCA.
In the commercial and high-life quarter, one and a half a square from the Riachuelo and close to the Ensenada Railway.
ON
Sunday, the 14th of June,
at 2 p.m.,
On the Property.
We shall proceed to sell in public auction 45,500 square varas more or less of splendid land situated in the most valuable part of the Boca, beginning a few yards from Calle Defensa and on the streets "Presidente," "California," "Sarmiento," "San Patricio," "Australia," and streets No. 128, 129 and 130. In large and small lots, including splendid corner lots. These lands are under Mortgage in favor of the National Hypothecary Bank from $1.03 to $4.50 the square vara in Cedulas of the Series B and C, the upset price being the mortgage value. Look out therefore capitalists, both great and small, merchants, artisans, speculators and those who are fond of bargains.
This auction offers a real opportunity of buying land with a great future before it like that we now offer and at the prices named. It is the solution of the problem which is the best Saving's Bank for the working classes. There is no better investment for money especially now, when paper money is depreciating daily, and presents the only form of metalising which now remains open to us, viz., buying land and nowhere will a better chance be found than the present since this is a locality which must always keep its value, and when trade revives, which soon must be the case land like this will not be purchaseable for four times the price at which we offer it today.
The Sale is a Forced Sale on account of division of partnership and will be made at the highest bid over the "base"
and **no lot will be withdrawn.**
The purchasers may remain with the mortgages on payment of the difference between face value and the market price on the day before signing the titles, or if they wish the titles will be handed them perfectly clean. Take special note of the low price and favorable conditions of this sale, and do not lose so favorable and opportunity of becoming owner of valuable land with the certainty that whoever buys the land will be calm and contented whatever happens knowing his dollars are safe Titles guaranteed.
NOTE—Every purchaser without exception will pay 5 % seña on signing the purchase note.

CASA QUINTA
IN FLORES,
Boulevarde de Circumvalacion Oeste, corner of Calle Flores.
Frontage to the Quinta Silveyra, 4 squares to the south of the plaza and church and only two from the Boulevard Rivadavia, with pavement and tramway.
Upset price $11,500 m/n.
Curso legal.
On
SUNDAY, 14th of June,
at 3 p.m.,
In the above-mentioned house,
We shall sell by auction to the highest bidder, by order and on account of the owner, at the highest price above the basis indicated, the valuable Casa-quinta above-mentioned, the house having only lately been built on ground occupying 27 x 35 varas.
The house is of English construction, with many commodities; it is composed of 7 rooms, surrounded by verandahs; a bathroom, kitchen, water-closet, store room, wooden peon's room. well, algibe, garden with iron fencing and 2 entrances., besides carriage entrance, etc., etc.
The situation is high and on lofty ground, with a splendid view, and in fact, the most agreeable position in that aristocratic quarter, and in the midst of well-known families.
It is a locality in particular request by the English society, as one can live there comfortably and economically in summer and winter on account of the facility of communication with the centre.
There is frontage to the Calle Independencia along which the tramway of the new Corrales will soon pass to the centre.
At this upset price the land is simply given away, as it represents much less than the cost of the house alone.

Quinta House in Flores.
Look out therefore gentlemen who wish to become house owners at a small outlay for you will never have a better chance. Titles guaranteed and perfectly free.
NOTE—The house may be seen any moment. Keys next door.
NOTE II.—The purchaser must pay 5 o/o seña on signing the purchase note.

Secciones Monte Caseros a Mercedes y Corrientes y Saladas.

Esta Empresa, deseosa de fomentar el desarrollo de algunas industrias nacientes y la prosperidad de las regiones que sus lineas atraviesan, ha dedicado aprovechar las facultades que le confiere la Ley de Ferro-Carriles Nacionales para acordar provisoriamente y hasta nuevo aviso rebajas sobre el trasporte de algunos articulos de produccion y fabricacion locales, como ser maderas, leña, huesos, piedra, carbon de leña, etc.
Para realizar esta idea dejara de cobrar desde el 25 o/o hasta el 50 o/o del aumento en el flete que la corresponda segun el tipo del oro, mientras que este no sea menor de 250 o sea un premio de 150 o/o y siempre en relacion a la cantidad de carga que se desen remitir.
Como es indispensable que toda reduccion sobre los fletes aprobados por el S. Gobierno sea hecha de conformidad con la citada Ley, es necesario que se verifique un convenio preció, por escrito entre la Administracion y los cargadores de estos productos a cuyo efecto deben los interesados dirijirse a aquella, sea en Monte Caseros o en Empredado, segun corresponda el transporte a una u otra seccion, solicitando de la respectiva rebaja.
Estas reducciones de fletes comprenden a todos los cargadores, tanto a los que remitan grandes cantidades como a los que envien pequeñas, mientras no sean menor de un wagon entero, a fin de evitar que la concesion de este beneficio de lugar a monopolios.
La tramitacion para obtener la reduccion de los fletes es sumamente sencilla, bastando al efecto un simple cambio de cartas entre esta Administracion y los interesados en conseguirla.

Banco Ingles de Rio de Janeiro
—:o:—
Con referencia a la circular dirigida a los accionistas el dia 30 de Enero los arreglos siguientes con referencia a los negocios y capital del Banco en el Brazil, han sido sometidos a una asamblea extraordinaria de accionistas y han sido confirmados por ellos.
Hace poco tiempo se hicieron propuestas a los Directores para la adquisicion en favor del Banco de Credito Universal (de Rio de Janeiro) de la llave de este Banco en el Brazil y despues de negociaciones considerables, se propusieron terminos al Directorio, los cuales en los intereses de los Accionistas creyeron seria conveniente aceptar.
Estos terminos estan ahora contenidos en un contrato y los compradores han pagado ya un deposito de 500,000 libras esterlinas como garantia del fiel cumplimiento de sus terminos.
Los terminos del contrato propuesto son que la llave del Banco en el Brazil, su activo alla junto con todas las casas del Banco y residencias de los gerentes y otros efectos hasta el valor de 4,500 Contos de Reis, seran vendidos por este Banco, al Banco de Credito Universal; reteniendo este Banco la llave de sus negocios en Londres, Rio de la Plata y cualquiera otro punto (excepto en el Brazil) y el pleno derecho de negociar en Inglaterra, Rio de la Plata y cualquiera otra parte ya sea con el Brazil ó de otra manera.
El precio de compra es de 875,000 libras esterlinas, menos una comision de venta de 2 1/2 por ciento pagadera á los Señores Megaw y Norton, dejando una suma liquida equivalente en cifras redondas á la devolucion del capital de 500,000 libras esterlinas empleado en el Brazil a la par y 350,000 libras esterlinas por la llave del Barco en el Brasil.
Una de las condiciones del contrato es que esta Banco cambiara su nombre y adoptara un nombre que no indique un Banco que tenga sucursales en el Brasil, por lo tanto desde el 30 de Junio proximo y despues del cumplimiento de esta compra el Banco se llamara

EL BANCO BRITANICO de la America del Sud
El efecto de esta venta no sera solamente dar a este Banco una suma equivalente al total de su capital pagado y un capital del fondo de reserva de 350,000 libras esterlinas pero dejara tambien libre el fondo de reserva existente de 225,000 libras estealinas.

ON 'CHANGE.
Tuesday, June 9th, 1891.
President Pellegrini's answer to the Camara de Comercio produced an excellent impression on the market, though there are in that epistle certain statements that may make economists smile

Captain Shand of Entre Rios was welcomed to-day. He reports a great scarcity of paper money in the Eastern quarter of the Argentine Mesopotamia, and a return to primitive dealings, cash in one hand and produce in the other. The Yeruá Colony is getting on and promises to become a very important settlement.

Rear-Admiral Cordero has sent a letter of thanks to the Chairman of the Remolcadora Company for lending the tug Leon with its powerful pump to save the pontoon Necochea which was sinking with 500 tons of coal aboard. The pump is the most powerful one in port and worked with excellent results, and the Admiralty have much pleasure in making known its efficiency and the generosity of the La Remolcadora Company.

As might have been expected after the headlong fall in the morning there was a firm reaction in gold at the second hour. Ounces opened at 64 rose to 75.20 and closed at 64 80. Sovereigns opened at 19.90 and closed at $20.25. National Bank shares were quoted at 31. Catalinas rose to 8.20, but collapsed quietly, closing at 7. Cedulas were firm.

Cheques of the State banks were quoted at the same discount as yesterday.

The following is a summary of the business effected in stocks and shares to-day at the second ring :—

DAY, SON & HEWITT'S
Veterinary Medicines

Mr. Wm. Kemmis, the well-known breeder of fine stock, writes as follows:—

Estancia Las Rosas,
Ferro-Carril Central Argentino,
10th Jan., 1891.

I consider that no estancia which has any stock worth giving medicines to ought to be without these medicines.

The GASEOUS FLUID is the very best colic medicine I have ever seen given to horses, and the RED DRENCH for any illness after foaling or calving or lambing is, I consider splendid.

Yours truly,

(Signed) W. KEMMIS.

DR. J. COLLIS BROWNE'S

CHLORODYNE.

The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.
From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London: Lear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.'
CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See "The Times," July 13, 1864.
Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelmning medical testimony accompanies each bottle.
CAUTION.—Befare of Piracy and Imitations.

At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.
As all animals offered for sale at this Estancia are by stallions, bulls, etc., imported direct from England by the owner, it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.
Nearest Station (under a league from the Estancia) EMPALME PEREIRA F.C. a La Plata from whence animals can be despatched to any part of the Republic.
Animals of the same breeds are obtainable at the Estancia La Favorita. Apply to the Mayodomo, Almacen La Suiza, Carrera Tandil a Necochea, or to Hotel Dhees, Tandil; also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina, F.C.O.S. Rosario.

Only Address in Buenos Ayres — Venezuela 1062.
